Currently, as a Full Stack Web Development Tutor I help students taking part in Full Stack Web Development coding boot camps at leading universities throughout the US. Coach students and help unlock their potential in languages and technologies such as GIT, HTML, CSS, Bootstrap, JavaScript, jQuery, Node.js, NPM, Express.js, React.js, Handlebars, Progressive Web Apps (PWA), MongoDB, and SQL.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, SQL

Frameworks: React.js, Node.js, Express.js, jQuery, Bootstrap, MySQL, MongoDB

PROJECTS

LEFTOVERS |

Frontend: <https://github.com/austinfofinke/project3-front> |

Backend: <https://github.com/austinfofinke/project3-back> |

Deployed: <https://food-savers.herokuapp.com/>

- The app connects suppliers with charities to manage leftover products and reduce waste
- I worked on the backend writing queries and routes
- The project used React, MySQL, Sequelize, CSS grid system and scss

WebGen |

Github: <https://github.com/rafaykhawar09/WebGen> |

Deployed: <https://webgen2020.herokuapp.com/>

- The app helps new business owners and startups to create a website with their unique web address, and access to database for users, and a frontend for customers.
- I worked on the queries and routes and putting Handlebars together.
- The project used MySQL, Sequelize, Materialize, Handlebars, and Cloudinary

Vivere |

Github: <https://github.com/GregReneris/Project1?> |

Deployed: <https://gregreneris.github.io/Project1/>

- The app helps people find specific cuisine around them, and then find nightlife events after the dinner is over.
- I worked on JS, events, and APIs
- HTML, CSS, JS, jQuery, and Materialize

EXPERIENCE

Tutor

2020-Present

Trilogy

Coaching students and help unlock their potential in languages and technologies such as GIT, HTML, CSS, Bootstrap, JavaScript, jQuery, Node.js, NPM, Express.js, React.js, Handlebars, Progressive Web Apps (PWA), MongoDB, and SQL.

EDUCATION

Certificate in Full Stack Web Development: University of Washington , Seattle WA
